SMALL NEGRO GIRL **CRITICALLY HURT** IN HIGHWAY CRASH

Mary Frances Copeland, two year old negro girl, is in a critical condition in the P, and S. Hospitul from injuries received near her bome on Highway 309 about three-fourths mile south of Kerens Wednesday morning at 10:30 o'clock. Both arms were amputated at the hospital.

Chester Kyser, constable at Kerens, stated that the accident occurred when two automobiles and a tractor met on the highway. When the brakes of one of the cars falled to hold, according to the constable, the driver pulled of the highway to the reft of the tractor to avoid a collision and several negro children were encountored. The automobile pinned the injuried child against a tree, mangling the arms and inflicting other injuries. Kyser said the automobile striking the child was driven by Mrs. Irene Goforth, wife of Dade Goforth of Kerens, and Aubry Immon was operating the tractor. He said he did not know the name of the driver of the other automobile.

Wright also called attention to the fact that OPA has made the first move to place printed ceiling prices on ready-made clothing at the factories, a move Wright has long been advocating.

In the first move, prices are to be placed on infants' and children's clothing for which the WPB has recentily allocated 40,000,000 yards of material. The prices will be placed on the garments at the factories where they are produced. A second move OPA has undertaken is to reduce the "over-finishing" and "fancying up" of fabrics which have often added greatly to the cost of both cotton and rayon clothing.

Announce Plans For Construction Modern Airport

Applications has been made to the Civil Aernautics Administration for the designation of an airport on the C. C. McClung and Henry Slate tracts one mile north of Corsicana, and construction of a field is scheduled to begin soon, according to an announcement Wednesday by M. V. Platt, former Corsicana resident, and J. D. Curry, Corsicana, who is slated to be manager and in charge of the construction. The airport site is on the west side of highway 75 near the Ralston houses across from the Oaks Goif course, and extends west to the Southern Pacific Linces right-of-way; it was stated.

Curry was employed three years at Air Activities of Texas as an army flight instructor and has more than eight thousand flying

hours to his credit.

Curry and Platt said the field would untimately cost approximately \$50,000 when completed, and will be equipped for all types of flight instruction, including ground school, etc., and will also include facilities for repairing, rebuilding and overhauling aircraft and aircraft engines, with transportation to and from the field to town. A cafe will be located at the port.

Butler said he was unable to secure definite figures on the sales here of the E-Bonds, 'but I know the sale of these bonds is badly lagging," he stated.

"The recent reverses we have met in Germany indicate that we still have a long and hard war ahead of us. The least that we can do to shorten this yar and start the Germans on the run again is to buy more bonds," he said.

Butler pointed out that extension of time on the sale of the E-Bonds gives opportunity for everyone tho give bonds as Christmas presents. He recommended this as the best outlet for holiday spending and the best form of backing for our boys at the front.

INTERVENTION IN GREECE ASSAILED BY LORD FARINGDON

LONDON, Dec. 21-(AP)-Lord

LONDON, Dec. 21—(R)—Lord Faringdon, assailing Britain's intervention in Greece, declared to day mutiny might arise among British troops detailed to quell civil strife there.

Cries of "monstrous" greeted his statement in the House of Lords.

"I should not be surprised," he told Lords "if our commanders had not already met with cases of men who show the greatest unwillingness to fight the Greeks and who may have refused to bomb Athens."

willingness to light the Greeks and who may have refused to bomb Athens."

Lord Samuel, leader of the liberal party in Lords, said Britain probably would have to resort to some: "inter-Allied action" to settle the Greek situation and asserted "there is no reason why Great Britain should be called upon to bear this burden alone."

King George II of Greece came under attack in Lords after a similar flareup in Commons against him.

Faringdon suggested the King 'did not deserve and was in fact the unsuitable recpient of the respect and authority with which the British gevernment have invested him."

HRISTMAS, the glorious season, has shed its radiance over the world since the Star of Bethlehem illuminated the skies as a beacon, calling to mandkind to witness the blessed Babe. And in God's own Heaven, herald angels' voices sweetly ring out in unison with the voices of Church choirs wherever they are free to sing His praises. The wonder of Christ's coming enthralls us: yet His most precious gift is the true spirit of Love which finds its strongest expression in the democratic way of life to which we are dedicated. When we foster liberty among all peoples we take our places deservedly as sons and daughters created in His image, keeping aloft in deed the glory of His word.

Fort Worth Sports Editor Here Today

Jim McMillen, sports editor of the Fort Worth Star-Telegram, accompanied by a representative of the Fort Worth Chamber of Com-A weather balloon and parachute released from Big Spring, Texas, December 11, was discovered lodged in a tree on the Jack Bressie farm ir the Navarro community by Jerry Marsh the following day, it has been announced. The balloon had ascended 12 miles high in its flight from Big Spring. The weather apparatus was forwarded by Bressie to Washington as per instructions found on the balloon and the parachute was returned to Big Spring.

The balloon, a large affair, had been torn when it struck the tree, it was stated.

BRITAIN'S POLICY On Way Port Arthur TOWARDS BALTICS

LONDON, Dec. 21.—(P)—Britain's policy toward the Baltics came under attack from two Conservative members of commons today, but Foreign Undersecretary George Hall declined to agree with a contention that the people of Latvia, Estonia and Lithuania had been "left in the lurch."

Sir Herbert Williams asked whether Russia's absorption of the countries was "in conflict with the principles of the Atlantic Charter and our agreement with the Union of Soviet Socialistic Republics." He also asked the government to explain "why we have left these peoples in the lurch."

Present Cattle Business Has Its Old West Perils

SAND SPRINGS, Okla., Dec. 21—(P)—Herding cattle is even more dangerous than it used to be in the rooting tootin west.

The brakes on a truck carrying 43 head of cattle failed at the top of a hill. The truck plunged toward a too-sharp curve, so the driver let it continue its straightaway course. Through a tourist camp it went plowing into a three-car garage, and demolishing a car.

Rolling 135 feet farther, it finally stopped on a rairroad track.

After the two truckmen crept out to survey damages, a train roared down on the truck, killing 14 head of the cattle. The men still are hunting for the rest.

NEW YORK STOCK EXCHANGE

NEW YORK, Dec. 21—(R)—Selected stock market favorites limbed back on the recovery van

By WILLIAM E. KEYES
AUSTIN. Tex., Dec. 21—(R)—
Texas Highway acidents involving defective automobiles are soaring this year but oddly enough these mishaps cannot be blamed in an increase of road deaths.

The reason, theorizes safety department director Homer Garrison, is that drivers of cars with poor brakes, thin tires, dim lights, wobbly stering gear and other defects realize the condition of their vehicles, and make allowances for the will driving.

Well and good, says Garrison, but when the overall traffic pictiges.

re year's road death toll will sur-uss last year's by 8 per cent. The final score will be about 1. In Morris.

Climer stressed the fact that ve nercal diseases do not respect wealth or social position. "You cannot be certain every time where your son or daughter has been and the only sure means you have of protecting them is to maintain the clinic." he added. Rapid Treatment Centers.

Rapid Treatment Centers,
"We now have five hospitals in the state called rapid treatment centers and in those centers syphilis cases are cured in from four to 14 days." Climer said. The nearest center for female patients is at Waco and the nearest center for male patients is at Dallas. The centers are maintained through the cooperation of the State Health Department and the United States Department of Public Health Service.

"These centers make no charge for their service." Climer said.

"And all infectious cases of venereal disease discovered by the clinic here are told about the centers and it is suggested that the patients go there for treatment."

However, because we do not compel anyone to go to the centers, there is more than enough room for all cases received.

Any infectious person who will take the treatments at the centers will be furnished without charge his clothes, medicines, meals and any other essentials, Climer stated.

Require Year's Treatment.

Climer said that by the usual method of treatment the syphillis case which is found within six months from the date of infection usually requires treatment over a period of from one year to a year and a half before a cure can be obtained.
